

Anit Singh Malik

UX/UI Designer & Front-End Developer with 12+ years of experience, specializing in clean, UI interfaces, usability enhancements, and modernization of legacy systems.

Location Preference: Delhi NCR, Mumbai, Pune

Profile Summary

- Experienced UX/UI Designer & Front-End Developer with 12+ years in designing and developing responsive, user-centric web applications.
- Proficient in HTML5, CSS3, JavaScript, Bootstrap, Angular, React, Python Flask, PostgreSQL, Tailwind CSS, and CMS platforms such as WordPress and Drupal—combining clean design with efficient development.
- Currently building an independent medical project using Python Flask and Tailwind CSS, handling complete UI design, backend logic, and database integration.
- Skilled in wireframing, prototyping, usability testing, and accessibility (WCAG) to deliver optimized user experience and functional clarity.
- Experienced in modernizing and re-engineering legacy systems to enhance performance, responsiveness, and user satisfaction.
- Strong ability to translate business goals into scalable design and technical solutions, collaborating effectively with cross-functional teams.
- Proficient in CMS customization, hosting management, domain administration, and marketing material design.
- Committed to continuous learning and staying updated with modern frameworks, design systems, and UX best practices.

Work Experience

ICMR–NICPR (ICMR-National Institute of Cancer Prevention & Research) -
Ministry of Health and Family Welfare, Government of India / Feb 2021 – Present
Consultant (Web Admin/IT)

Key Result Areas:

- Manage and maintain all organizational websites, portals, domains, and hosting environments.
- Design and coordinate marketing materials such as brochures, banners, presentations, and promotional creatives.
- Develop and maintain Flask-based web portals for Ministry projects, integrating secure databases and user-friendly interfaces.
- Collaborate with cross-functional teams to ensure timely updates, accurate data flow, and consistent digital communication across platforms.
- Handle web and digital operations, including troubleshooting, updates, performance optimization, and security enhancements.
- Implement, monitor, and optimize digital platforms to ensure reliability, usability, and seamless user experience.
